PLEASE COMPLETE THE REQUESTED INFORMATION BELOW AS COMPLETELY AS POSSIBLE. Please describe **legibly** the incident that meets the self-reporting criteria and explain why you think this meets criteria for incident review. Make sure to include the following details, as relevant, to help determine whether this case warrants a full review: maternal age, parity, gestational age, length of various stages of labor, duration of ROM, presence of meconium, GBS status and treatment, FHTs, vital signs, APGARS, method and time of decision to transport, and hospital course/outcome. **DO NOT ATTACH COPIES OF THE CHART.** Please continue onto the back of this form or attach additional pages as needed. Thank you.

In the event the QMP determines that this does not warrant an incident review, do you still feel you would benefit from an incident review? If so, what would you hope to gain from an incident review and what aspects would you like to focus on during the review?

Would you like to invite one additional individual, beyond the 3 panel members selected, who was present at this incident to participate in this review? If so, please provide the name, role at the birth, and contact information:

If you do not receive an acknowledgement in approximately one month from the time you send it, please contact the QMP (qmp@washingtonmidwives.org). Please retain a copy of this for your records; in the event a review is planned, you will need to provide it to the review panel.

PLEASE FAX TO MAWS QMP at 1-206-691-8203

Thank you,
The QMP Committee
